

Commissioner William F. Hutson called the meeting to order at 9:30 a.m. with Stephen D. Hambley and Colleen M. Swedyk present. The meeting was held in the commissioners' hearing room and opened with the Pledge of Allegiance and a prayer.

The minutes of the January 19, 2021 commissioners' meeting were emailed in advance. Mr. Hambley moved to approve the minutes; Mrs. Swedyk seconded the motion. There was no discussion. Roll call showed all commissioners voting AYE; the motion carried.

Highway Engineer Administrative Assistant Dan Becker presented and reviewed the following resolutions: (1) approving the final plat for the Hidden Lake Estates Subdivision Phase 3 located in Medina Township, Lots 26 and 29; (2) approving annual assessment on improvements constructed under the authority of Section 6131.63 Ohio Revised Code on approximately 13.0410 acres in lots 26 & 29 of Medina Township known as Hidden Lake Estates Subdivision Phase 3 and establishing thereby said improvements as a public watercourse; (3) approving the final change order to the contract for MED-CR2-2.56, the resurfacing of Medina Line Road (CR-2) from Ridgewood Road (CR-60) to Greenwich Road (CR-97), between the Shelly Company and the Medina County Board of Commissioners; and (4) approving the plans, specifications and estimate of cost and authorizing the Medina County Engineer to advertise for bids for the project known as MED-VAR-CR resurfacing (FY2021) to resurface Reimer Road (CR-123) from Hinkle Drive to Medina Line Road, Hartman Road (CR-127) from Broad Street to Reimer Road, and Leatherman Road (CR-260) from the bridge over I-76 to Reimer Road in Wadsworth City and Wadsworth Township in Medina County. Mr. Hambley moved to approve the four resolutions; Mrs. Swedyk seconded the motion. Mr. Hutson stated that on the final change order for the resurfacing of Medina Line Road the order was a decrease of \$132,000 on the road project which is a very good thing. He noted the actual contract price was \$1.8M and it was completed for just under \$1.7M. Mr. Becker stated that it doesn't happen often. There was no further discussion. Roll call showed all commissioners voting AYE; the motion carried.

The commissioners reviewed the permits issued January 14-January 20, 2021.

Assistant County Administrator Amy Lyon-Galvin presented and reviewed the following resolutions: (1) amending the appropriation measure resolution; (2) cash transfer for various funds; (3) authorizing the purchase of 7,500 gallons of regular unleaded gasoline for the Engineering Center; (4) accepting an application for the use of a procurement card for the Medina County Drug Task Force; (5) authorizing agreements with various veterinarians for dog spay and neuter services for the Medina County Animal Shelter; (6) approving an agreement for a Mental Health Program at the Medina County Jail; (7) approving an agreement for a Drug and Alcohol Program at the Juvenile Detention Center; (8) approving an agreement for a Mental Health Program at the Juvenile Detention Center; (9) approval of a Revolving Loan Fund administration agreement with the Ohio Department of Development; and (10) allowing claims and authorizing issuance upon the treasurer in settlement of such list of claims in the amount of \$1,506,301.62. Mr. Hambley moved to approve the ten resolutions; Mrs. Swedyk seconded the motion. There was no discussion. Roll call showed all commissioners voting AYE; the motion carried.

Human Resources Director Holly Muren presented and reviewed a resolution approving the personnel changes for the employees under the jurisdiction of the Medina County Commissioners. Mr. Hambley moved to approve the resolution; Mrs. Swedyk seconded the motion. There was no discussion. Roll call showed all commissioners voting AYE; the motion carried.

County Administrator Scott Miller presented and reviewed the following resolutions: (1) authorizing the execution of a Stop Loss Agreement and Addendum with Medical Mutual of Ohio for the provision of employee health plan services; and (2) accepting the donation of real property from the Board of Trustees of Lafayette Township. Mr. Hambley moved to approve the two resolutions; Mrs. Swedyk seconded the motion. Mr. Hutson thanked Lafayette Township Trustees for their kind contribution to EMA; it will be used to house a lot of their emergency equipment. There was no further discussion. Roll call showed all commissioners voting AYE; the motion carried.

Sanitary Engineer Jeremy Sinko presented and reviewed a resolution authorizing the preparation of detailed plans, specifications, estimates of cost and tentative assessments for the construction of a sanitary sewer on Ryan Road Sewer Project No. S-500/200-184.1 in Medina County Sewer District 500. Mr. Hambley moved to approve the resolution; Mrs. Swedyk seconded the motion. Mr. Hambley asked if the individuals were provided a gross estimate cost with the understanding that the actual cost will be determined at a later; Mr. Sinko confirmed and stated that the residents were given a generic price upfront and will be provided more accurate cost before the project begins. There was no further discussion. Roll call showed all commissioners voting AYE; the motion carried.

Commissioner Hutson presented and reviewed a resolution of the Board of County Commissioners of Medina County for the purpose of calling upon the Governor to provide for full state indigent defense reimbursement in the upcoming state budget. Mr. Hambley moved to approve the resolution; Mrs. Swedyk seconded the motion. Mr. Hambley stated that he recommends that their legislative team should also receive copies of this as well. The commissioners agreed that this is a priority and has been for a long time. There was no further discussion. Roll call showed all commissioners voting AYE; the motion carried.

Transit Director Shannon Rine presented and reviewed his department update for December and into 2021. He stated that their 18 Express press launch occurred on January 4th; they are receiving positive feedback with a lot of people inquiring on how to use the route. Brochures and bus wraps will help advertise the route to get the word out. Mr. Hutson asked if this program was a way to connect Medina County Public Transit to Summit and Cuyahoga counties; Mr. Rine confirmed noting that it is a way to get people to and from work as well as to medical

appointments that need to cross county lines. There is a consortium meeting scheduled where we will discuss involving businesses as a way to advertise this route as well.

Mr. Rine reported that ridership in 2020 was down about 24% - which is to be expected, but overall it was a good year. Demand routes had a decrease of approximately 39%. They continue to use safe practices to protect riders and staff. Mr. Rine thanked Mr. Hambley for coming out on a Transit visit noting that it was good for his staff to see that there is interest in Transit. He noted that his goal is to make Transit more prevalent and relevant in the future as a much needed part of the community. With new technology such as tablets and the EZ-Fare validators, they hope to see an increase in ridership in the future.

Mr. Hambley stated that he was very impressed to see how Transit has advanced over the last six years, which is due to technology and a great management and staff. In response to Mr. Hutson's question, Mr. Rine stated that there is no physical card with the EZ Fare. It will be an app on phones with visual verification and an audible alert. There is technology being discussed that will allow riders to use their debit card eventually making it much easier for riders. Mr. Hutson inquired if there was a way that employers could purchase blocks of Transit miles and offer it as a benefit to their employees. Mr. Hambley stated the county could consider it for our employees as well.

Job & Family Services Director Debbie Kiley stated that Job & Family Services is a three division operation which includes Child Protective, Child Support and Public Assistance. The Governor signed into law a kinship support program on December 29th, which states that the governor is going to assign a per diem to children in custody of Job & Family Services, even though they are placed with a relative, at a rate of \$10.20 per day per child. Ms. Kiley described the rule in more detail for the Board. There are currently 14 kids in custody in relative placement and 75 in foster care. Mrs. Swedyk asked if the relatives become certified, would the relative jump up to the foster care rate. Ms. Kiley answered yes, which is about \$35/day. Mr. Hutson asked what the requirements are for certification. Mrs. Kiley stated that there are background checks, fingerprinting, home safety assessments, etc. Discussion occurred on where the law is at in the process. Mr. Hutson asked where the funding comes from for the \$10.20/day. Mrs. Kiley stated for right now it comes from the State of Ohio, but once they get certified, the burden will fall on the county. She noted that under the current guidelines you only get \$400/month for two children and under the new program you would get a total of \$612/month for two children. Ms. Kiley stated that another legislation impacting Child Protective is the Family First Prevention Services Act, which will require prevention before pulling the child out of the home and entering them into placement. Currently they have pilot counties working through the program to gather information on finances and the burden on staff. Lastly, Leadership of Medina County have been amazing partners and are focusing on fostering children in Medina County and to increase the awareness in the county. They helped with a holiday toy drive for foster families in November. Their ability for outreach is helping bring awareness to the need and we are really excited to continue to work with them.

Ms. Kiley stated that the Child Support Division collected over \$31M in support payments in 2020 which results in thousands of dollars of incentive money that comes back to the county. In December 2020 alone, they received \$30,000 of incentive money. The division works about 7,500 cases and an average of 97% of those have support payments established and 79% of those cases are making current support payments – they are exceeding the state's expectations by 9%. The division processed approximately 230 support hearings and some of those cases they work hand in hand with the Child Protective Division in redirecting payments to the county when a child is in custody. They are currently entering a term marathon where children are aging out of the support system. They gather all of the children turning 18 in 2021 and take those cases to Domestic Court.

Ms. Kiley stated that the Public Assistance SNAP Benefit Program or the Food Assistance Program are mandated by the State to authorize benefits within 30 days of the days of request; Medina County is currently at a timely approval rate of 99%. In 2020, over 6,000 requests for assistance were received and \$19M in SNAP Benefits were distributed, more than \$1M in cash benefits and about 23,000 individuals with medical assistance each month. Medina County has offered to be a pilot county for the Child Care Authorization System.

Ms. Kiley noted that the local Job & Family Service Offices are not the administrators of unemployment; there has been a lot of confusion about this. She explained that individuals looking for unemployment can go to unemployment.ohio.gov. For those wanting to report identity theft can click on "Report Identity Theft" where they can fill out a form to submit. She noted that there are social media surges advocating people to gather at the local unemployment offices tomorrow at noon to protest, but those offices don't exist. Mr. Hutson stated that he had two people contact him who received confirmation letters in the mail of their unemployment application, but they are employed and neither submitted an application. Mrs. Kiley stated that they are trying to figure out what the scam is as well and noted that people should be watching their bank accounts and credit cards for fraud. She stated that you should never call a number and enter your pin – instead report the fraud immediately.

Ms. Kiley stated that the cash balance for the entire agency is in very good shape. She noted that the work from home for the Child Protective Division didn't have a big adjustment, unlike the Child Support and Public Assistance Divisions. About 90% are working from home, but they do have in office days and continue to do a great job working from home.

Medina County Board of Developmental Disabilities Superintendent Stacey Maleckar reported that they have been working with the Health Department on coordinating vaccines for specific groups of individuals they serve. They have vaccinated 65 individuals and their staff in Group 1A, which are individuals in congregate settings, and have moved onto the 1B Group. They will be hosting a closed vaccine clinic this Friday at their facility. As of this morning, they have 155 people confirmed to receive the vaccine and anticipate this number to double over time. Mr. Hutson asked what group of individuals they are serving at the clinic. Mrs. Maleckar answered that they are

individuals receiving services in Group 1B which does not include family members because of qualifications. Mrs. Maleckar thanked all of their providers in the county and stated that they have gone above and beyond during this pandemic. She stated that they are back in person for school which works better for the kids. The teachers and staff have done an amazing job with safety protocols and keeping everyone safe. They are working with the Health Department and in early February plan to have teachers and aides vaccinated.

Mrs. Maleckar reported that they are starting their strategic planning; focus groups will begin in March. Mr. Hutson stated that the agency has vested itself in providing direct services and asked where they are at in their timeline. Mrs. Maleckar explained that they planned to get out of the direct day service provision and have removed themselves from this in the beginning of 2020 which was ahead of schedule. Currently, the only direct care services provided are with community employment. Mrs. Swedyk asked if the private providers are permitted to use their facilities for adult services. Mrs. Maleckar stated that right now there are private providers in their facilities to provide day services. In response to Mr. Hutson's question, Mrs. Maleckar stated that they are looking at a strategic plan on how to build provider capacity for community employment and that will be the end of direct services.

Commissioner Hambley moved to go into Executive Session following Discussion Session for the purpose of consideration of compensation of a public employee; Mrs. Swedyk seconded the motion. There was no discussion. Roll call showed all commissioners voting AYE; the motion carried.

With no further business to come before the Commissioners, the meeting recessed at 10:08 a.m.

Discussion Session

At 10:08 a.m., the Commissioners began the Discussion Session in the Commissioners' Hearing Room.

Park District Letters of Support

Isaac Smith from the Park's District explained that they are looking to apply for two trail projects (1) Clean Ohio Trail Fund and (2) Chippewa Inlet Trail Rehabilitation. The Clean Ohio Trail Fund project is coupled with \$150,000 of 2018 funds received from the State Capital Improvement Program. The project will link from State Route 18 near Summa and the trail will be nearly 1 mile in length. An easement was obtained from Summa Health to bring the trail through their campus and back into our property to the south. A parking lot will be built at East Smith Road to make a trail head.

The second project will be applying to ODNR for rehabilitation of the Chippewa Inlet Trail, which will include reconstruction and drainage improvement to a section of the trail. In response to Mr. Hutson's question, Mr. Smith stated this drainage improvement won't necessarily improve the flooding of Chippewa, but it will maintain the excess that the Chippewa sub-district has on the inlet. Mrs. Swedyk stated that last year the Park's District was experimenting to help with algae blooms and asked if they are continuing to use this program. Mr. Smith confirmed noting that they did not apply last year because the levels did not reach a level in order to get the application, but it is still in their budget to use the program if necessary. Mr. Smith reported that they are going to be doing a wetland restoration on the old amusement park. Mrs. Swedyk stated she is excited they have this property and it will be wonderful to see it restored. Mr. Smith stated that the cleanup process design is being worked on now and hopefully in the next year or two, phases of this project will be accomplished. Mr. Hutson added that it is very exciting to see all of the trail projects underway. The commissioners agreed to sign the letter of support in favor of the projects.

60 Public Square Leases and Space

Mr. Miller stated that there are two renters in 60 Public Square; James Coco's lease goes through November 2021 and Dorman's lease goes through 2023. We received a request from Dorman asking for early termination of his lease. Mr. Miller noted that this building was originally purchased for the Prosecutor's Office, but they did not want to move in unless they could occupy the entire building in the future once the renters left. The total square footage of the Prosecutor's former space in 72 Public Square was approximately 15,503 sq. ft., and if they gain the 1st floor in 60 Public Square they will have an additional 2,500 sq. ft. September 2021 through August of 2022, Dorman would have been paying approximately \$56,000 in rent, and through 2023, it would be approximately \$57,000 in rent. Mr. Miller asked the commissioners if they would like to move forward with letting them out of their lease and allow the Prosecutor's Office to move into the 1st floor or keep Dorman in his lease.

Mr. Miller explained that the Prosecutor's Office currently occupies approximately 14,000 sq. ft. Mr. Hutson noted that this is less space than they had in 72 Public Square. Mrs. Swedyk stated that it is a better designed space, but it would be nice to use some of that space for another department if he didn't need the whole floor. Mr. Hutson inquired if the prosecutor needs all of that space. Mr. Miller answered that he states he does need the space and we did already promise him the entire building. In response to Mr. Hambley's question, Mr. Miller stated they would use the space for expansion for future office space. Mrs. Swedyk asked if Mr. Miller has asked the prosecutor if he still needs that space after the remodel has been complete. Mr. Miller stated that 3-4 months ago, the prosecutor stated that he was still interested in that space. In response to Mr. Hutson's question, Mr. Miller stated that James Coco is planning on staying until his lease is up in November and he only has one office. Mr. Hutson proposed that Dorman stays until November 2021 and then both tenants can vacate the building at the same time. This would give them more time to talk to the prosecutor and ask him how he will use the extra space. Mr. Miller stated that when the building was purchased, we acquired too much space; there is no department that can be moved into that space at this time. Currently, we have Educational Service Center, Court Mediation and OSU Extension that need relocated. Once the courthouse is built, we will have the second floor at 72 Public Square, which could house the OSU Extension Office and the basement could hold Court Mediation. Depending on what happens with the 1969 courthouse, this could hold both the Educational Service Center and the OSU Extension Office. Mr. Miller stated that we could move one of those departments into the first floor of the 60 Public Square, but the space isn't large

enough for them. Mrs. Swedyk stated that 4,000 sq. ft. would be enough. Mr. Miller noted that the prosecutor did request additional staff, but that is not in his budget this year. Mr. Hutson stated that it is a good idea to have expansion space, but what is the best way to deploy it for the period of time before the prosecutor needs it. Unless he needs it within the next 1-2 years, we should get another department in there; Mrs. Swedyk agreed. Mr. Miller stated that even if he moves a department in there, we can't sell the Professional Building because departments will still occupy that space. Mr. Hutson asked if Court Mediation could go into 60 Public temporarily until they can move into the 72 Public Square basement. Mr. Miller stated that if two different departments were moved in to 60 Public Square, renovations would have to be done. Mr. Hutson stated that moving a department into 60 Public Square would get us closer to our ultimate goal of selling the Professional Building. Mr. Miller stated it would, but once the courthouse is built there will be space for those departments in the Professional Building. Mr. Hutson stated yes, but the courthouse will not be done for 2-3 years. Mr. Hutson suggested putting Court Mediation into the space for two years temporarily without doing a lot of renovations, we could get them out of the Professional Building and get us closer to selling that building. Mr. Miller clarified that the commissioners would like to let Dorman out of his lease in November 2021 and move another county department into the first floor of 60 Public Square temporarily until the courthouse is completed. Mr. Hambley stated that he wouldn't want to cause an inconvenience, and until the Professional Building is completely vacant, it doesn't make sense to make these moves. Mr. Hutson stated that he doesn't mind keeping the promise to the Prosecutor's Office for them to occupy the entire 60 Public Square building, but if they don't need it at this time, then we should use it for other needs. The commissioners agreed to allow Dorman out of his lease in November 2021. Mr. Miller stated that he will move in the suggested direction in terms of what to do with the space.

Judge Kovack Courthouse Concerns

Mr. Miller stated that a letter was received from Judge Kovack last week asking the commissioners to exclude her from the new courthouse construction. The current space in the 1841 courthouse is about 6,500 sq. ft. and about 4,400 of that is staff space only. The current plans show 12,490 sq. ft. for Domestic Relations Court with 11,500 being staff only space. After speaking with Judge Kovack, she had concerns with locations of hearing rooms and bailiff security issues. Mr. Miller stated some changes were made to the plans to add doors and they moved the hearing rooms so they were together, but she still is uncomfortable with the plans as they are. Judge Kovack is requesting one of the following options be met: (1) keep the Domestic Relations Court in the first and second floors of the 1841 courthouse; (2) move them to the first and second floors of the 1969 courthouse; or (3) they be moved into a different building entirely. In response to Mrs. Swedyk's question, Mr. Miller stated that their space is almost double what they currently have and their staff space is about 2.5 times bigger. Mrs. Swedyk stated that this is a much better space than what they currently have.

Mr. Hutson stated that this courthouse needs to be built in order to satisfy current and future needs and the current plan accomplishes this. If Judge Kovack doesn't need the full 12,490 sq. ft. of space, let's compact it into a smaller space, but build the project, and then we have that extra space for future expansion for other departments or courtrooms. As far as the footprint is concerned, if she is saying she only needs 6,500 sq. ft., let's carve that out and give it to her. That will give us 6,000 additional sq. ft. that can be used for expansion space in the future. Mr. Miller stated that his preference would be to leave it as-is. Mrs. Swedyk inquired if the purple section meets the Supreme Court's requirements for courthouses. Mr. Hutson stated that they believe it does accomplish that objective, but it has not yet gone to the Supreme Court for review.

Mr. Hutson stated that Domestic Relations is currently on the second floor of the old courthouse; Mr. Miller stated that it's on the third floor. Mr. Hutson stated that in the current design, it is on the second floor; Mr. Miller confirmed adding that they would have the north end of the new construction and the second floor of the 1841 courthouse. Mr. Hambley stated that he gathered that the configuration of those rooms include all non-loadbearing walls in the new courthouse. Mr. Hutson explained that in the new courthouse, the only loadbearing structures will be the columns. Mr. Hambley stated that Judge Kovack could make some proposals regarding the configuration of the rooms as to what the flow needs to be to address her concerns. Mr. Miller stated that the architect has spoken to the judge about the space; the architects thought that the plan met every criteria that the judge had laid out. Mr. Hutson reviewed the judge's proposed options and in his opinion, none of her proposed options are feasible. He stated that we have a drawing, we have a plan, we've approved the plan and we should stick with it; Commissioners Hambley and Swedyk agreed. Mr. Miller confirmed that the plans are to be kept as is and continued to move forward. Mr. Hutson stated that we have gone through this for more than two years, we have a good plan and we should stick with it. Mr. Miller noted that Mr. Hambley is correct – taking down a wall and building a wall can still be done, but we're getting to a point now where changes need to be very minor. Mrs. Swedyk stated that changes have been made based on requests; Mr. Miller confirmed. He reviewed the changes that have been made to the plans based on requests from Domestic Relations. Mrs. Swedyk stated that she likes the idea of employees being in a safe, secure building that meets 21st century courthouse standards.

Home Relief Grant Extension

Amy Lyon-Galvin stated that Community Action Wayne/Medina announced that the Home Relief Grant has been extended. Eligible families should reach out to them if they have past due rent, mortgage and/or water needs for missed payments related to COVID. Examples would include missed payments due to COVID diagnosis in the household, lost employment due to COVID, or increased expenses due to COVID. The flyer is on the commissioners' Facebook page. Those needing assistance may call is 330-461-9333 to schedule an appointment.

Helping HANDS Newsletter

Commissioner Hambley suggested that Brian Gallatin prepare articles for the commissioners' to be included in the HANDS newsletter which is published every other month. Brian will coordinate with the commissioners to

determine article content which will promote what the various departments are doing. The commissioners agreed to have Brian work on this.

Sales Tax

Commissioner Hutson stated that sales tax for December is up 9%; it continues to be strong.

Size/Weight Limits of Trucks

Commissioner Hutson stated that the City of Medina is seeking support. There is a proposal at the federal level to increase the weight and size limits of trucks and trailers. There is a good deal of trucks that come through the City of Medina and on our local roads and the increase in weight limits would be an issue. The commissioners agreed to permit Commissioner Hutson to sign a letter opposing the increase; Sheriff Grice has already signed it.

8730 Lake Road

Jeremy Sinko stated that bids were opened yesterday for the 8730 Lake Road building renovation. He hopes to award the bid next week.

Executive Session

At 10:41 a.m., the Commissioners went into the Executive Session that had been voted on earlier. The Executive Session ended at 11:02 a.m. and returned to regular session.

Adjournment

Mr. Hambley moved to adjourn the meeting; Mrs. Swedyk seconded the motion. Roll call showed both commissioners voting AYE; the motion carried. The meeting adjourned at 11:02 a.m.

RESOLUTIONS PASSED JANUARY 26, 2021

<u>Number</u>	<u>Resolution Title</u>
21-0069	Approving the final plat for the Hidden Lake Estates Subdivision Phase 3 located in Medina Township, Lots 26 and 29
21-0070	Approving annual assessment on improvements constructed under the authority of Section 6131.63 Ohio Revised Code on approximately 13.0410 acres in Lots 26 and 29 of Medina Township known as Hidden Lake Estates Subdivision Phase 3 and establishing thereby said improvements as a public watercourse
21-0071	Approving the final change order to the contract for MED-CR2-2.56, the resurfacing of Medina Line Road (CR-2) from Ridgewood Road (CR-60) to Greenwich Road (CR-97) between The Shelly Company and the Medina County Board of Commissioners
21-0072	Approving the plans, specifications and estimate of cost and authorizing the Medina County Engineer to advertise for bids for the project known as MED-VAR-CR Resurfacing to resurface Reimer Road (CR-123) from Hinkle Drive to Medina Line Road, Hartman Road (CR-127) from Broad Street to Reimer Road, and Leatherman Road (CR-260) from the bridge over I-76 to Reimer Road in Wadsworth City and Wadsworth Township in Medina County
21-0073	Amending the appropriation measure resolution
21-0074	Cash transfer for various funds
21-0075	Authorizing the purchase of 7,500 gallons of regular unleaded gasoline for the Engineering Center
21-0076	Accepting an application for the use of a procurement card for the Medina County Drug Task Force
21-0077	Authorizing agreements with various veterinarians for dog spay and neuter services for the Medina County Animal Shelter
21-0078	Approving an agreement for a mental health program at the Medina County Jail
21-0079	Approving an agreement for a drug and alcohol program at the Juvenile Detention Center
21-0080	Approving an agreement for a mental health program at the Juvenile Detention Center
21-0081	Approval of a Revolving Loan Fund Administration Agreement with the Ohio Department of Development
21-0082	Allowing claims and authorizing issuance upon the treasurer in settlement of such list of claims
21-0083	Approving personnel changes for the employees under the jurisdiction of the Medina County Commissioners
21-0084	Authorizing the execution of a Stop Loss Agreement and Addendum with Medical Mutual of Ohio for the provision of employee health plan services
21-0085	Authorizing the preparation of detailed plans, specifications, estimates of cost and tentative assessments for the construction of a sanitary sewer on Ryan Road Sewer Project No. S-500/200-184.1 in Medina County Sewer District 500
21-0086	Resolution of the Board of County Commissioners of Medina County for the purpose of calling upon the governor to provide for full State indigent defense reimbursement in the upcoming State Budget
21-0087	Accepting the donation of real property from the Board of Trustees of Lafayette Township

All deliberations concerning official business and formal actions by this Board of Commissioners were conducted in an open public meeting this twenty-sixth day of January 2021.

Respectfully submitted,	COMMISSIONERS	_____
		Stephen D. Hambley
	OF	_____
_____		William F. Hutson
Rhonda J. Beck		
Clerk to the Commissioners	MEDINA COUNTY	_____
		Colleen M. Swedyk
