

William F. Hutson called the meeting to order at 9:30 a.m. with Stephen D. Hambley and Colleen M. Swedyk present. The meeting was held in the commissioners' hearing room and opened with the Pledge of Allegiance and a prayer.

The minutes of the July 13, 2021 commissioners' meeting and July 15, 2021 public hearing were emailed in advance. Mr. Hambley moved to approve the minutes; Mrs. Swedyk seconded the motion. There was no discussion. Roll call showed all commissioners voting AYE; the motion carried.

Assistant County Administrator Amy Lyon-Galvin presented and reviewed the following resolutions: (1) amending the appropriation measure resolution; (2) amending the 2021 appropriations resolution by transferring appropriations; (3) expenditure adjustments for various funds; (4) revenue adjustments for various funds; (5) cash transfer for various funds; (6) authorizing the county auditor to transfer funds from various county department accounts to the Medina County Cleaning revenue line item; (7) creation of the Drug task Force FY 21-22 fund and authorizing appropriations; (8) creation of a Community Corrections Act Intensive Supervision Probation/Diversion Grant fund for FY 22-23 and authorizing appropriations; (9) creation of the Sheriff's Office Motorcycle Safety Grant fund and authorizing appropriations; (10) creation of the Sheriff's Office 2021 Community and Litter Grant fund and authorizing appropriations; (11) approving a lease renewal with Macedonia Property Management for office space for the Clerk of Courts Medina Auto Title Office; (12) declaring it necessary to proceed with the submission of a renewal and increase of the County Home levy on the November 2, 2021 ballot; (13) declaring it necessary to levy a tax above the ten mill limitation for the purpose of meeting the expenses of the Medina County Combined General Health District Program, to provide an adequate amount for the necessary requirements of the District, and to provide the Board of Health with sufficient funds to carry out such health programs, and requesting the Medina County Auditor to certify the total current tax valuation of Medina County and the amount of revenue that would be generated by a renewal of a (.70) mill tax levy with an increase of (.15) mills pursuant to Sections 5705.03, 5705.191 and 3709.29 of the Ohio Revised Code; (14) allowing expenses of county officials; and (15) allowing claims and authorizing issuance upon the treasurer in settlement of such list of claims in the amount of \$1,998,334.13. Mr. Hutson requested that the 12th resolution be held until after public comment. Mr. Hambley moved to approve resolutions 1-11 and 13-15; Mrs. Swedyk seconded the motion. There was no discussion. Roll call showed all commissioners voting AYE; the motion carried.

Human Resources Assistant Nicole Lee presented and reviewed a resolution approving the personnel changes for the employees under the jurisdiction of the Medina County Commissioners. Mr. Hambley moved to approve the resolution; Mrs. Swedyk seconded the motion. There was no discussion. Roll call showed all commissioners voting AYE; the motion carried.

Sanitary Engineer Jeremy Sinko presented and reviewed a resolution authorizing a memorandum of understanding between the City of Median and the Medina County Board of Commissioners relative to the transfer of water customers along State Route 18 in Medina Township. Mr. Hambley moved to approve the resolution; Mrs. Swedyk seconded the motion. There was no discussion. Roll call showed all commissioners voting AYE; the motion carried.

Chief Building Official Richard Nelson reviewed the June report of the Building Department noting that the estimated value of construction costs for residential are up quite a bit and commercial is down. The average construction costs for new homes year-to-date is \$425,175. June receipts remain slightly higher than June 2020 with year-to-date receipts has decreased, but still good. Mr. Nelson reported that the department is doing well with response times – residential reviews are at 2 days and commercial is averaging 18 days. One of their building inspectors is trying to get hired with the state, so they began advertising the position in hopes of receiving some applications in the event he leaves. In answer to a question by Mr. Hutson, Mr. Hambley stated that based on the report, there have been 204 house permits year-to-date and in June of 2020, there were 163 which is a 34% increase on the house permits. Mr. Nelson added that they are on track for about 420 homes this year. Mrs. Swedyk inquired why commercial is down. Mr. Nelson answered that there is less need for new office space and some project remain on hold. They have projects they looked at early-mid 2020 that were put on hold due to Covid; some are still in a holding pattern. Mr. Hutson asked if anything has come in from Menards; Mr. Nelson answered that nothing has been received to date.

Economic Development Director Bethany Dentler reported that they continue to see a lot of economic development activity. Countywide, they are tracking 63 companies which all together have committed \$104.3M in new capital investments and have also committed to build more than 395,000 square feet of space. She noted that their capital investments include new machinery and equipment, and with more companies unable to find workers, they are seeing trends towards automation. They see a great deal of business expansion activity in the pipeline including interest in commercial/industrial development in every corner of Medina County. She stated that as some projects may be on hold, this may be due to supply chain issues and construction supply cost increases. Although they see evidence of a robust recovery, inflation is now becoming a worry particularly with regards to wages. Workforce remains the biggest issue of concern to companies. There are over 1,000 job openings in Medina County. The latest unemployment rate is 3.6% and initial weekly unemployment claims have fallen below 100 since the end of June which is lower than the initial claims the week prior to the shut down last March. Even continuing claims on a weekly basis than they were on March 14, 2020. She stated that the economy is picking up where it left off.

Mrs. Dentler reported that her office received a grant from the Summit/Medina Workforce Development Board to put together a social media marketing campaign to promote manufacturing. Since the campaign's inception, they

have made over 1M impressions on various social media outlets to date. An all-county hiring event will take place on July 29; 50 companies are registered to participate and both virtual and in-person job interviews will be offered. Those companies are listed on www.worklocal.net, interested manufacturers can contact Kathy Breitenbucher in her office at kathyb@medinacounty.org. They also undertook a postcard mailing campaign to drive attention to the website which features job openings just in Medina County which resulted in 624 new visitors to the website in the weeks after the mailing.

She stated that legislatively, they have been tracking House Bill 123 which would significantly change how the Community Reinvestment Area Property Tax Abatement Program works in Ohio. Because those changes would impact the level of transparency and accountability of one of their most widely used programs, they have opposed it. Although the bill was approved by the Ohio House, Mrs. Dentler thanked our local House of Representatives legislators who both voted against it. It has now been introduced into one of the committees in the Ohio Senate; no hearings have been scheduled. When that gets scheduled, she will be back to request support from the commissioners to fight that bill in the Senate. She stated that she was pleased to see when the budget bill was passed, the onerous provisions that would have greatly harmed the Medina County Fiber Network and partners was removed; she thanked the commissioners for their support in opposing that language.

NOACA's Regional Comprehensive Economic Development Strategy's stakeholder committee officially kicked off their yearlong planning process last week. She will be engaged in that oversight committee over the next year. They are looking at harmonizing the existing local strategies among NOACA's five counties. They also want to emphasize those regional issues that are important to all of us such as the airport. NOACA seems to recognize the importance that local communities will need to use this regional plan to obtain federal and state funding. NOACA also has an Equity Committee; Kathy Breitenbucher serves on that committee.

Mrs. Dentler announced that Economic Development's office has moved to Suite 119 on the first floor of the Administration Building. She thanked Steven Bastean and his team for the beautiful job they did in the renovations noting it allows them to operate more efficiently than before. They are planning an open house in September.

Mr. Hutson asked if there was an update on Medina Fiber. Mrs. Dentler reported that they are moving along and requested people visit Medina Fiber's website to sign up. They are finalizing plans of where to build out next, so the areas with the most demand will get that attention. They begin beta testing customers over the next week or so. Mr. Hambley asked for those that are manufacturers in the supply chain for auto manufacturers, how are they doing. Mrs. Dentler answered that they heard a lot of issues early in the year, but things seem to have settled down. She explained that their backlog of orders is higher than ever. She provided an example of a company who indicated that before Covid, their backlog was maybe \$3 of orders; those backlogs are now up to \$15M. It's taking longer due to the workload and having a need for employees. They are working through it, but there are some national issues that need to be dealt with.

Commissioner Hutson presented and reviewed a resolution commending Patrick R. Grimes for his 22 years of service with Medina County. Mr. Hambley moved to approve the resolution; Mrs. Swedyk seconded the motion. There was no discussion. Roll call showed all commissioners voting AYE; the motion carried.

Commissioner Hutson presented and reviewed a resolution amending the membership of the Medina County Railroad Safety Task Force. Mr. Hambley moved to approve the resolution; Mrs. Swedyk seconded the motion. There was no discussion. Roll call showed all commissioners voting AYE; the motion carried.

Commissioner Hutson noted that commissioners received notice of a transfer of liquor permit request from Hinckley Convenience Inc. dba Hinckley Convenience & Gas to Par Mar Oil Co. located at 1321 Ridge Road, Hinckley Township, Hinckley, OH. This is for permit classes C1, C2 and D6. The commissioners are not requesting a hearing; notice provided for the record.

Public Comment

Carol Feron, 3335 Myers Road, Medina Township, stated that she was unable to attend the public hearing for the proposed levy for the County Home noting that she is a very big supporter of the County Home and wanted to express her approval of the .075 levy increase that will hopefully be in the ballot. She stated that 20 years ago, the residents of this county made it clear that they support this home. Every five years, this levy has passed without question. The new increase should be a "no brainer" and she believes this is the first millage increase being asked for the home in 20 years. They have been excellent stewards of tax dollars, and her understanding is for a \$100,000 home, this levy would be equivalent to \$7.77 per year which is very reasonable. She added that if we learned anything from 2020, we know that we don't know what tomorrow holds. Money may be in the general fund today, but what about 2-3 years from now – it's not guaranteed. We don't know who the commissioners will be in 2-3 years either. Mrs. Feron stated that Greg Brown has done an excellent job in laying out the facts and running the County Home. She stated that she feels the citizens of Medina County will support the important mission of the home and caring for our most vulnerable citizens as they have been for the last 20 years. She noted several people in attendance that believe in this noting that hopefully, the commissioners will go forward in putting this on the ballot.

Tom Borrer, 3747 Watkins Road, Medina Township, stated that the County Home is one of the most valuable assets and it took Tom Bahr and Steve Hambley coming to their senses 20 years ago and listened to them for a campaign that would allow the voters to decide where the money should come from. He mentioned Bob Finnan's article regarding how long the commissioners have talked about this .075 addition noting that he wishes a few other things

would get this much of their time. He asked the commissioners to please support this because the voters will tell them how important it is.

Brian Feron, 3335 Myers Road, Medina Township, stated that the County Home Advisory Council was put together as a result of the first levy to monitor the funds, to monitor the superintendent and to monitor the residents to ensure our tax dollars were being well spent and in accordance with what the voters asked for and was approved. He noted that the Friends of the County Home are a nonprofit organization that helps the residents with birthday presents, ballgames, horse shoes and gets them out to do activities that we take for granted, but the residents may not have access to do so. He agreed with Mr. Borrer that a lot of time and energy were invested in this issue, and if he was in Mr. Brown's shoes with a five year projection of what money he has coming in and knowing what he has to spend, he would do a whole lot better job managing the County Home and residents if he has a revenue stream he can count on, and he thinks the levy will do just that. He encouraged the commissioners to support the levy.

Carol Carter, 102 Pin Oak Trail, Seville, stated that she is the Mayor of Seville. She stated that her grandparents were one of the first ones at the County Home. As an elected official and dealing with general funds, you never know. The memories she has of the County Home, her sister was the last administrator of the County Home, and with planning and with the support you have of keeping this home alive. She stated it was scary when she heard the commissioners were going to take it over 20 years ago because you don't always know what's going to happen because you don't always have the support. She stated that she surely hopes it stays the way it is instead of general fund.

Mr. Hambley moved to approve a resolution declaring it necessary to proceed with the submission of a renewal and increase of the County Home levy on the November 2, 2021 ballot; Mrs. Swedyk seconded the motion.

Mr. Hambley thanked those who came to speak and explained that he had requested a public hearing as he believed it was important to have the opportunity during non-business hours to give others the ability to talk about the County Home. He thanked Superintendent Brown for all the work he's been doing noting that the commissioners did a really good job in hiring him because he really cares about the residents and he loves the institution. It is a family institution as well as a government organization. Mr. Hambley stated that there are only 7 county homes remaining in this state and, at one point in time, the supervisors of the County Home were elected. After the change in the state constitution, the counties took over, but a superintendent still retained some independent authority of the county commissioners. There was a lot of debate in 2001-2003 regarding this issue resulting in it being placed on the ballot. He noted that he was one of the commissioners that made the mistake of closing it and not looking to the people to which he publicly conceded. Fortunately, the voters have approved it time and time again to have independent funding of the County Home that they can count on as pointed out by Mr. Feron. He stated that Carol was correct that there has been no increase in millage, but there was an increase in 2006 – a replacement. He noted the attendance of former Commissioner Geissman last week's public hearing. He looked at the minutes from 2006 when there was a replacement issue on the ballot, it was another 2-1 vote to put the replacement on, and it was the same argument where she opposed the replacement County Home levy. She basically says we don't need to increase taxes because the County has the money to be able to provide for it – we can provide grant funding. Mr. Hambley stated that wisely they decided in 2006 not to fall into an easy trap of saying we have general fund money and other sources of grants, we use that and not have independent authority. What it comes down to is having a dedicated funding source. Part of the argument in 2006 is also that we weren't charging residents enough; we do charge residents so those who can afford it do pay for it. For those that can't, the County can afford to do it. That's the purpose of the levy and it's always been the intention of the levy. The danger of having a separate source is if you have a contingent upon a board of commissioners that change, as well as circumstances for all the other parts of general purpose government that county commissioners are responsible for, the tendency is maybe we will just closed a wing and limp along. That's a cycle of decline that actually is a disinvestment strategy and he doesn't think this is what Medina County needs and certainly not what he would support. He pointed out that this levy involves a modest increase in taxes, nothing has been increased since 2006, but the election year is 2023. It's not this collection year or next year's collection year – its 2023 collection year and five years beyond that. Mr. Hambley added that he could support a renewal. If we did a renewal, we would be in a deficit of \$1.8M the commissioners would have to make up. If the commissioners want to set aside \$1.8M for the operating expenses of the County Home that they could draw on as they don't have sufficient revenue. He stated he doesn't think that's a good idea because we have a lot of other demands in this county that the board of commissioners are responsible for. We know that people have been supportive of this and will continue to support it. This is our best estimate of what the costs are. He added that in his mind, if the voters decide that they don't want the County Home any longer, then the voters will have made that decision. Mr. Hambley stated that he is confident that the voters will do as they have done the last number of times it has been on the ballot. He urged that the voters support this and stated that he supports proceeding with putting this renewal with an increase on the ballot in November.

Mrs. Swedyk stated that although she has been publicly clear that her preference would have been a straight renewal, she respects and will support the decision by the County Home Advisory Council.

Mr. Hutson stated that he feels very fortunate as he goes around the county, he gets to talk about what a great place Medina County is to live, work and play. It is for most people, but we have to remember that there are folks in the county that are less fortunate and need help, and the County Home fulfills a very important function for those individuals. Mr. Brown has done an excellent job at running it the last couple of years and it really is a very unique place. He encouraged everyone to go visit the home. He stated that from his perspective, costs should be charged where costs are incurred, and the cost to run the County Home should be charged to the County Home and not to the general fund. Having a dedicated source for supporting the County Home is crucial. If the voters decide that this is not something we want for Medina County, then they can vote accordingly. He stated that he thinks it is something

that has overwhelmingly been supported by voters over the last 20 years, and his belief is that they will continue to be supportive. Mr. Hutson encouraged everyone to support the levy and to keep the County Home in place.

There was no further discussion. Roll call showed all commissioners voting AYE; the motion carried.

Mr. Hutson acknowledged that the commissioners received a letter from Russ & Melinda Clutter in support of the levy.

Discussion Session

At 10:12 a.m., the Commissioners began the Discussion Session in the commissioners' hearing room.

ARP Project Funding

Scott Miller stated that the chiller and boiler both need to be replaced at the jail as well as installation of a filtering system. The estimated quote for these items was \$400,000-\$600,000; the actual quote came in at \$599,000. Mr. Miller indicated that he would like to move forward with these items using ARP funds.

Mr. Miller explained that the project for the County Home involving the boiler, filtering system and central air system was originally estimated at \$400,000 and the actual quote came in at \$742,000 due to the complexity of the project with \$190,000 being for the boiler. He recommended that this project not be completed and to use general fund monies or the County Home funding to replace the boiler. He explained that the boiler was at end of life years ago and is something that needs replaced. He noted that he would like to prepare a resolution for the jail allocating the money for their project and move some money into capital for the boiler at the County Home.

Mr. Hambley clarified that the ARP money for HVAC involves infectious control spreading and we need to make sure it meets the criteria of that money. Because of the restrictions, we couldn't use it just for a boiler; Mr. Miller confirmed. Mr. Hutson stated that if we combine it into a single project, we can use the ARP money for both. Mr. Hambley stated that basically you'd have to expand the scope of the project much larger. Mr. Hutson stated that our estimate was \$400,000 and the actual estimate came in at \$742,000. He noted that he would prefer to use ARP money and do the project, than to take money out of the general fund because we have more flexibility with the money in the general fund than we do the ARP money; Mrs. Swedyk agreed. Mr. Hutson added that it's something that we're going to need to do. Mrs. Swedyk asked Steven Bastean to confirm that part of doing this system was due to the need for new windows too and wasn't there a benefit to this project. Mr. Bastean answered that there is a benefit to it from an air conditioning system. Currently, window units are installed in each of the rooms to provide air conditioning in the summer months. This new system would actually provide the ability to control all the rooms, but would be one large unit. It would provide better efficiencies in the summertime from better energy use. He stated he's not too concerned with the energy use from the windows piece, but from an air conditioning standpoint, it will save them from putting in window units and taking them out each year, and it would also provide a better filtration system inside the building. However, \$562,000 is a really hefty price tag in his view. The \$190,000 for the boiler need to get done as it was installed in 1965 and is significantly aged, however, ARP funding cannot pay for just a boiler. Mr. Hutson stated that it's a lot of money because of the age of structural components of the building that have to be worked around. Mr. Hambley added that it's because of the design of the older part and newer part. Mr. Bastean noted that the cost of copper is extremely high right now and there are a lot of copper lines that get ran in that building. Mr. Hutson suggested moving forward with the whole HVAC system. Mrs. Swedyk stated that she feels this was the exact type of project that the ARP money was designated for. Mr. Hambley stated that he is good with moving forward with it using ARP for the entire project. Mr. Miller stated that he will prepare a resolution for both projects.

Courthouse Project

Mr. Miller thanked Ohio Edison, Frontier, Medina Fiber and Armstrong for moving all the utilities at the Courthouse in one day.

PO System

Jeremy Sinko reported that Involta looked at the P.O. system for the Sanitary Department and determined that it is time to replace it. They have looked at four P.O. systems and of those, the most economical fit that suits their needs is approximately \$10,000 per year. He stated that they would like to go forward with that. The commissioners agreed Mr. Sinko could move forward.

Opioid Settlement

Mr. Hambley stated that the commissioners received a notice of Ohio's opioid settlement discussion noting that a statewide, in-person meeting will be held Friday at 10:00 a.m. He inquired if someone from the prosecutor's office should attend. Mr. Miller stated that Forrest Thompson will be attending in person.

Historical Cornerstone

Mrs. Swedyk noted that Council President John Coyne had approached the commissioners regarding a historical cornerstone and what would be put in it. She stated that they need to think about what is going to go in it. Mrs. Swedyk will contact the Ferons for input.

ARP Scoring Process

Mr. Hutson suggested having a work session to review the projects prior to individually scoring the projects. After the projects are scored, the scores could be reviewed during another commissioners' meeting to see if the commissioners are in agreement. In answer to a question by Mrs. Swedyk, Ms. Lyon-Galvin stated that she is hopeful that the binders will be completed over the next week. Mr. Hutson inquired if an application had been

received from the Village of Seville: Ms. Lyon-Galvin answered no. Mayor Carter stated she thought it was sent in. Ms. Lyon-Galvin added that the final rule has not yet been released and she is unsure when it will be received.

Mr. Hambley stated that some of the projects are more complex than others and recommended inviting the requestors to attend the work session. Mr. Hutson inquired how he would propose that the commissioners would select those to be invited. Mr. Hambley stated that a decision on who needs to attend can be made after the binders are received. Mr. Miller recommended scheduling 3-4 days, similar to budget hearings, and have everyone come in and present their requests which provides the commissioners opportunity to ask questions and to understand what the projects are. After the work session, the commissioners can score and come together to review the scores. He noted that we're really in no hurry to spend the money and nothing will happen quickly on this. He stated that the scoresheets are ready with the exception of the new requests and binders should be ready by the end of the week. Mr. Hambley stated that he likes the idea as it is public money and gives the opportunity for the public to view the expenditure of this money.

After discussion, the commissioners agreed to have work sessions on the following dates/times to review ARP funding requests: August 17 10:30 a.m. – 12:30 p.m. and 6:00 p.m. – 8:00 p.m.; and August 18 3:00 p.m. – 5:00 p.m.

Northern Medina County Chamber Alliance

Mr. Hutson stated that the commissioners were contacted by the NMCCA regarding a veteran's business owners' event that will be held on November 17 wherein they have requested commendations from the commissioners recognizing them. The commissioners agreed to provide commendations.

Small Business Grants

Mr. Hutson announced that the state has approved \$310M in grants to small businesses that were started in 2020 and suffered due to Covid. These grants have been made available through the Ohio Department of Development.

Senate Bill 52

Mr. Hutson stated that SB 52 has been signed by the governor and gives the county commissioners a significant amount of authority and responsibility over whether wind and solar can be located inside the unincorporated areas of the county. He suggested reaching out to the Township Association and get a recommendation from them whether the commissioners prohibit wind and solar in Medina County, or designate areas. Mr. Hambley stated that his understanding is that the commissioners don't have to take action at all, and at this point, there is nothing pending or being discussed, so the commissioners don't have to take action and he is hesitant to do anything at this time. Mr. Hutson explained that his thought was should the commissioners take a position on it before they have a proposed project. He doesn't think there is any rush to do this, but his thought is to be proactive on it and take a stance. Mr. Hambley stated that his question is can you prohibit one type and retain the other, meaning can you retain the ability to do the large solar fields but prohibit the wind farms. Mr. Hambley is looking into with the CCAO.

Adjournment

Mr. Hambley moved to adjourn the meeting; Mrs. Swedyk seconded the motion. Roll call showed all commissioners voting AYE; the motion carried. The meeting adjourned at 10:35 a.m.

RESOLUTIONS PASSED JULY 20, 2021

<u>Number</u>	<u>Resolution Title</u>
21-0729	Commending Patrick R. Grimes for his 22 years of service with Medina County
21-0730	Amending the appropriation measure resolution
21-0731	Amending the 2021 appropriations resolution by transferring appropriations
21-0732	Expenditure adjustments for various funds
21-0733	Revenue adjustments for various funds
21-0734	Cash transfer for various funds
21-0735	Authorizing the county auditor to transfer funds from various county department accounts to the Medina County Cleaning revenue line item
21-0736	Creation of the Drug Task Force FY 21-22 Fund and authorizing appropriations
21-0737	Creation of a Community Corrections Act Intensive Supervision Probation/Diversion Grant Fund for FY 22-23 and authorizing appropriations
21-0738	Creation of the Sheriff's Office Motorcycle Safety Grant Fund and authorizing appropriations
21-0739	Creation of the Sheriff's Office 2021 Community and Litter Grant Fund and authorizing appropriations
21-0740	Approving a lease renewal with Macedonia Property Management for office space for the Clerk of Courts Medina Auto Title Office
21-0741	Declaring it necessary to proceed with the submission of a renewal and increase of the County Home levy on the November 2, 2021 ballot
21-0742	Declaring it necessary to levy a tax above the ten mill limitation for the purpose of meeting the expenses of the Medina County Combined General Health District Program, to provide an adequate amount for the necessary requirements of the District, and to provide the Board of Health with sufficient funds to carry out such health programs, and requesting the Medina County Auditor to certify the total current tax valuation of Medina County and the amount of revenue that would be generated by a renewal of a (.70) mill tax levy with an increase of (.15) mills pursuant to Sections 5705.03, 5705.191 and 3709.29 of the Ohio Revised Code
21-0743	Allowing expenses of county officials
21-0744	Allowing claims and authorizing issuance upon the treasurer in settlement of such list of claims
21-0745	Approving personnel changes for the employees under the jurisdiction of the Medina County Commissioners
21-0746	Authorizing a memorandum of understanding between the City of Medina and the Medina County Board of Commissioners relative to the transfer of water customers along State Route 18 in Medina Township
21-0747	Amending the membership of the Medina County Railroad Safety Task Force

All deliberations concerning official business and formal actions by this Board of Commissioners were conducted in an open public meeting this twentieth day of July, 2021.

Respectfully submitted,	COMMISSIONERS	_____
		Stephen D. Hambley
	OF	_____
_____		Colleen M. Swedyk
Rhonda J. Beck Clerk to the Commissioners	MEDINA COUNTY	_____
		William F. Hutson
